

AL580-HDX

HIGH CAPACITY LIFT FOR
LARGE MID-WHEEL POWER WHEELCHAIRS

LIFTS UP TO 450 LB

The AL580-HDX is designed to lift and transport heavy mid-wheel power wheelchairs with wheel sizes from 10" - 14". These mobility devices are secured with a combination of 4-Q'straint retractors and a hold-down arm.

The Stars-N-Stripes platform guards against road debris and in some cases the optional swing-away maintains access to a vehicle's cargo area. The AL580-HDX is compatible with a variety of SUV's, trucks, and crossovers.

EASY ACCESS

Harmar's swing-away accessory helps give you full access to the trunk, hatch or truck bed of your vehicle. When your lift is unloaded and returned to a travel position, release the latch and safety pin, and gently swing it to the side.

The AL580-HDX allows me to take my custom power wheelchair without sacrificing my cargo space. Love its ease of use.

PN# PRODUCT SPECIFICATIONS
